

## You control your fit and comfort.

Imagine not wondering where you can change your socks. (Or if you brought them.)  
Imagine not adjusting your life to your device.  
With RevoFit<sup>®</sup>, you control your fit and comfort.  
Adjust anytime, anywhere. **Just turn the dial.**

### How it works

Your provider will integrate the RevoFit<sup>®</sup> system into your new socket during fabrication, allowing for adjustable panels, gaps, or hinges. This creates a clean, low-profile solution for a custom fit with easy, real-time adjustments.

### Take control of your socket

RevoFit<sup>®</sup> gives you the freedom to control your device. Leave discomfort, disrobing, multiple refittings, and sock changes behind.

### Go and do what you love to do!

"I don't have to adjust my life to my socket anymore because my RevoFit socket adjusts to my life. It has changed my life"

- Aaron Murray, RevoFit user

Talk to your practitioner about how RevoFit<sup>®</sup> can help you focus more on your life and less on your socket.
